

Empower Your Supply Chain with R Systems' EDI Partner Onboarding Solution

Common EDI Partner Onboarding Challenges

Manual data collection, configurations

Onboarding backlog, procurement delays

Minimal visibility

Our innovative Boomi-based solution automates the EDI Partner onboarding process. Business users and partner managers can invite partners to register in the portal and initiate the onboarding process. EDI configurations on Boomi, backend ERP systems like SAP are automated along with EDI testing using pre-built PO templates.

The Benefits

Improve productivity by enabling faster onboarding

Empower business partner collaboration

Improve operational efficiency of the business

Get Enhanced Visibility with R Systems' Boomi-powered EDI Dashboard

Limited visibility in tracking EDI orders

Manual order fulfillment reconciliation

Delay in responding to customer

Our innovative solution, built on Boomi technologies, creates supply chain visibility using EDI documents in real-time. Its innovative capabilities include rendering EDI documents into easily understandable human-readable formats, track order fulfillment with a click, go live in few weeks and ease of enhancement.

The Benefits

Real-time visibility

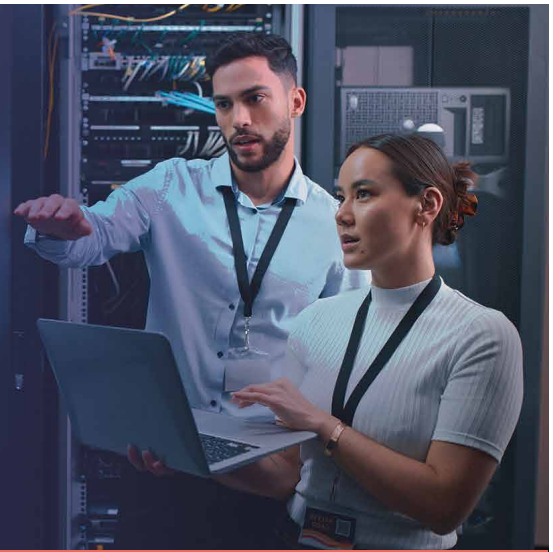

Track order lifecycle with a simple click

Insights on shipments, invoices, and more

About R Systems

R Systems is a leading digital product engineering company that designs and develops chip-to-cloud software products, platforms, and digital experiences that empower its clients to achieve higher revenues and operational efficiency.
